

SEARCHING FOR THE MISSING BODIES

WORKED ALL NIGHT ON WINDSOR HOTEL RUINS.

List Known to Be Dead This Morning Was Placed at Fifteen—Number Missing Seventy-two—Number of Injured Beyond Recovery—Fifteen Deaths Occurred This Morning.

New York, March 18.—[Special]—Firemen worked heroically last night on the Windsor hotel ruins, cooling them sufficiently to allow the work of searching for the bodies, which began this morning.

The list known to be dead this morning is said to be fifteen.

The latest figures place the number of missing at seventy-two.

Reports from the various hospitals in the city this morning say that of the fifty or more injured, a number are beyond recovery.

Fifteen deaths occurred this morning, one of the victims being Mary Sullivan.

Two hundred men started to work searching the debris at 10 o'clock, but worked only a few minutes when the flames broke out afresh and the men driven away and the search has been abandoned until later in the day.

A rigid investigation into the cause of the fire will be begun today and an attempt made to place the responsibility for the frightful loss of life.

The commissioner of buildings says the building was unfit for hotel purposes.

Fire Chief Bonner ascribes the great loss of life to the fact that people became panic stricken and made no intelligent efforts to find the fire escapes and other safe methods of egress.

A corner section of the hotel, probably seven feet high is still standing and the police had to establish a new danger line.

While there have been other hotel fires in which both monetary loss and loss of life was greater, never in history has there been so many startling displays of heroism. Some of the occurrences are almost past belief.

All the firemen are safe and accounted for. It was feared that some had perished while rescuing imperilled people.

Warren Leland, who became temporarily insane last night, is slightly improved this morning.

Mrs. Maurice Henry, of New York, died at the Roosevelt hospital today.

This brings the list of the dead up to sixteen.

A man named Kane was arrested this morning on the charge of breaking into Mrs. Abner McKinley's rooms during the fire and stealing ten thousand dollars worth of her jewels.

A number of those reported missing turned up alive and well during the day, and the number of missing is now placed at forty.

The origin of the fire is still a mystery, but the theory that a lighted match was thrown against a curtain by a careless guest while hurrying to see a parade, is the most plausible.

Mrs. Russell, wife of a comedian, Kate Forsyth and J. B. Rose, president of the baking powder trust, who were reported missing, are safe. They were away from the hotel when the fire occurred.

The number of injured is now placed at fifty-five.

New York, March 18.—The Windsor hotel, occupying a square on Fifth avenue, between Forty-sixth and Forty-seventh streets, for nearly thirty years one of the most famous hotels of this country, if not in the world, was completely destroyed by fire Friday afternoon, and many persons were burned to death and probably more than half a hundred were injured.

Mrs. Warren Leland and her daughter are two of these. The others, with one or possibly two exceptions, were guests at the hotel. Of the forty-nine who are known to have been injured and whose names the police have, more than half the number are guests. The others are servants in the house.

There were rescues by the score, some of them the most thrilling imaginable. Among the rescued were Mrs. Abner McKinley, wife of the brother of the president; their daughter, and Miss Helen McKinley, sister of the president.

It may be many days before the list of the dead is complete. With such awful rapidity did the fire spread, once it started, that people no higher up in the building than the floor above the street had to fly for their lives.

There is no complete and satisfactory list of the missing. The police have taken the names of all the persons reported missing, and have given that as the list of those missing, but many of the persons whose names appear in the list were found by reporters tonight at other hotels or at the houses of friends.

Only by a search of the ruins will the extent of the disaster be known, and so complete was the wreck wrought by the fire that this will be a long and tedious work.

GOODWIN HOUSE CLOSED

Well Known Hotel in Beloit Closed Its Doors Yesterday.

The Beloit Free Press of last evening says:

"H. F. Heldenbrand today closed the Goodwin house of which he has been proprietor about two years. He could not make it pay although no one ever made a more heroic effort to conduct a hotel in good shape than Mr. Heldenbrand has. He and his chief clerk, Mr. Doty, worked incessantly and made constant improvements, but in spite of all this the business did not pay and they lost money. The business men of the community are unanimous in their expressions of regret at Mr. Heldenbrand's misfortune.

It is not known who will run the house.

TRIBUTE FROM AN IOWA PAPER

Interesting Reminiscences From Emmetsburg, Iowa, Democrat.

The death of William Blanchard, formerly of Janesville, calls forth interesting reminiscences and an appreciative tribute from the Emmetsburg (Ia.) Democrat. In addition, as to the facts as to his life which have already been printed in The Gazette, the Democrat says:

Mr. Blanchard was one of the most respected old gentlemen in northern Iowa, and was very widely known. He was strong, vigorous and hearty, and appeared as fresh as a man fifty-five of sixty. He was intelligent, genial, well posted and was a most companionable old gentleman. He was a close student of public affairs, and called frequently at the Democrat office to read and converse on current topics. He took a broad view of matters and could appreciate good in all creeds and all organizations. All who knew him had a deep regard for him, and his life and character were such as to merit the appreciation of all. His life was a blessing to his country and to his race, and his many exemplary traits are reflected in the survivors of his most excellent family.

LOSSES AND INSURANCE.

New York, March 18.—Eugene Fabry of the firm of C. C. Anderson & Co., fire brokers, was at the fire and gave these estimates of the insurance carried by his concerns: Rents, \$75,000; furniture, \$150,000; occupancy, \$50,000. His estimate of the total loss was \$1,000,000. The insurance on the Windsor hotel aggregated \$600,000 on the building and \$75,000 on rents.

The hotel was owned by Elbridge T. Gerry. Its builder and first owner was John T. Daly, who died in 1877. The building alone cost \$850,000, and the luxurious furniture of the house cost an additional \$425,000. The land at the time was supposed to be worth \$800,000, but its value to-day is far greater.

THE LATEST NEWS FROM BADGERDOM

MARY BROWN COMMITTED SUICIDE OR SUFFOCATED.

Oshkosh Women Are Charged With Burglary—Ulrich Noe, of Outagamie County, Confesses That He Tried to Wreck Electric Car—Other Interesting State News.

Oshkosh, Wis., March 18.—Mary Brown committed suicide or was suffocated. That was the conclusion to be drawn from today's testimony. Dr. Russell, who assisted in the autopsy, testified that in the absence of evidence of poisoning he would think the girl had been suffocated and that there no evidence to show that she had died in bed. John Kirscher, watchman at Heymann's department store, testified that he saw a man, whom he thought was James Hatley, proprietor of the American restaurant, where the girl worked, go up stairs with a woman at midnight. Hatley testified he went to bed at 9:30 o'clock.

In support of the suicide theory it developed that Miss Brown had on several occasions complained of having to work so hard and had wished that she was dead, also that she had talked of taking laudanum to produce sleep.

Charged With Burglary

Oshkosh, Wis., March 18.—The police arrested eight persons today, all suspected of having had a hand in the recent housebreaking. Four of them are women, who live on the south side. A considerable amount of plunder was recovered, including jewelry from which the precious stones had been removed. The residences, temporarily vacant, of wealthy persons, have been the places robbed.

Tried to Wreck Electric Car.

Appleton, Wis., March 18.—Ulrich Noe, a young man of the town of Harrison, attempted to wreck an interurban electric car last night, and was followed across the country five miles, to his home, where he was arrested. He had been drinking and rolled a stone on the track between this city and Menasha. The car pushed the stone off the track without being injured, and Superintendent Holcomb and Policeman McCabe of this city, tracked the man to his home by his footprints in the snow. Noe has confessed.

Mrs. Robinson was born at Kalls in county Meath, Ireland, March 18, 1798, her girlhood name being Charity Powers. Her father was a famous sea captain, and for many years had command of the British warships. She is a woman of education, and has been quite a reader all her life. Even now she reads without glasses.

The extra coach brought out by the 9:40 train from Milwaukee is switched on to the Portage train at this point. In trying to do this this morning the switchman did not wait until the car had passed the switch, but turned it just after the head trucks had gone by. The car tore off the signal end ripped out a large section of the platform. The car was also badly damaged and the passengers in it were given a shaken up and frightened.

LIEUT. COL. HAMES GOVERNOR OF CEBU

TWENTY REBELS KILLED IN YESTERDAY'S ATTACK.

General Otis Has Entirely Reorganized His Forces—To Consist of Three Brigades Each—Details of Reorganization of Forces in the Philippines.

Manila, March 18.—[Special]—Lieutenant Col. Hames, of the First Idaho, has been appointed governor of Cebu. The Filipino soldier captured in yesterday's attack on MacArthur's centers, says twenty were killed on insurgent side.

Forces Re-organized.

Manila, March 18.—[Special]—General Otis has entirely re-organized his forces, which will consist hereafter of two divisions of three brigades each. Lawton and MacArthur are placed in command of divisions.

In Lawton's command will be the California, Washington and North Dakota volunteers, under King's Idaho volunteers, six battalions of Iowans, the Fourteenth regulars, six troops of the Fourth cavalry, under Owenshine; Dyer's and Hawthorne's light batteries, Oregon volunteers, Third Twenty-Second regulars under Wheaton.

McArthur's division will consist of the Colorado, Nebraska and South Dakota Volunteers, six companies of Pennsylvania, under Hale; Kansas and Montana Volunteers, two batteries of the Third Artillery, under Otis, the Wyoming and Minnesota volunteers and the Wyoming Artillery.

The Twentieth Regulars and eight companies of the Twenty-Third are assigned to provost guard duty.

Manila, March 18.—The insurgents to the north of the city advanced from their trenches late yesterday afternoon and attacked Gen. McArthur's center. The Utah battery, Third artillery, and the Pennsylvania regiment, repelled promptly, and after some resistance drove the enemy back with considerable loss.

Lieut. John Thompson and Privates John McVay and Alexander McCasne, all of the Pennsylvania regiment, were wounded.

A Filipino soldier who has been captured by the Americans states that the rebel forces immediately to the north of Manila number 4,000 men. The main army, comprising 10,000 troops, is concentrated at Malolos, the insurgent capital.

The insurgents have reoccupied Taitai. A gunboat towed 100 men of the Twenty-Third infantry across the lake to-day and shelled Binangonan.

The lines are quiet, though there is some firing on the front of the Tenth Pennsylvania infantry.

Lawton Will End the War.

Washington, March 18.—"Gen. Lawton will have his headquarters in Aguinaldo's capital, Malolos, within a fortnight," said an official of the war department yesterday. "Lawton will take command of the forward movement against the insurgent stronghold when the Sherman arrives at Manila with the troops on board that transport. When that movement begins fighting in the Philippines will not continue long. Malolos will be taken, Aguinaldo will have to fly to the north, and finally leave the island or make terms of peace with Gen. Otis. The war news from the Philippines will not be exciting for many more weeks. Gen. Otis has confidence in his ability to make short work of this rebellion, and the war department has confidence in Gen. Otis and his army."

The confidence of the war department is shared by the navy and state departments. From all official sources at Manila the government is receiving the most encouraging impression.

FUNERAL OF MRS. TERWILLIGER

Remains Will Arrive Here From Chicago Next Monday

From Chicago on the 11:50 o'clock train Monday morning, will arrive the remains of the late Mrs. Harriet Terwilliger and from the depot they will be taken to Oak Hill cemetery for interment.

Deceased was seventy-five years of age and was well known in this city and highly esteemed by her former friends and neighbors. Her sister, Miss Sophronia Griswold, preceded her to the better world a week ago. Mrs. Terwilliger leaves three daughters and one son, Mrs. Emma DeLand and Miss Nellie Terwilliger, of Chicago; Mrs. Will Fish, of Rockford, and Fred Terwilliger, of Chicago. She also leaves one brother, S. A. Griswold, of Mason, Ill.

Mrs. Mary Kelly.

The funeral of the late Mrs. Mary Kelly, was held from St. Augustine's church at Footville, yesterday forenoon at 9:30 o'clock. There was a large attendance of friends, and at the close of the sad rites the interment took place in Mt. Olivet cemetery. The pall bearers were John Devins, Michael Mulcahy, John Langdon and John Drew.

JAMES MORTON WAS INJURED

Was on His Way Home with Medicine from Whitewater.

A particularly sad event was the death of Mrs. James Morton at her home in Johnstown last Friday under such unusual circumstances. A couple of days previous her husband went to Whitewater for medicine for his wife. Starting to return home, his team took fright at the railway crossing and ran, throwing him out. In falling he struck a barb wire fence, cutting his scalp badly and otherwise injuring him so that he was taken to a near by house where he still remains, his condition being serious. It was deemed inadvisable to inform his wife, and she died without learning of his accident, while the husband is also uninformed of the death of his wife. That misfortune never comes singly seems to be more than demonstrated in this pathetic case.

DAMAGE SUIT BILL BEFORE COMMITTEE

CITY ATTORNEY BURPEE IN FAVOR OF REPEAL.

M. G. Jeffris Argues That the Statute Is All Right As It Stands on the Books—Amendments Proposed Against Ice Cases and Double Judgments.

City Attorney Fred C. Burpee and M. G. Jeffris appeared before the committee on cities, at Madison, the former in favor of the bill to do away with personal damage suits resulting from falling on defective sidewalks and the latter opposed to the bill. Attorney Jeffris insisted that the personal injury statute in its present form was really a benefit to cities as it made them inspect sidewalks more carefully to avoid damage suits.

Attorney Burpee suggested to the committee that if the repeal of the entire statute were not thought expedient, amendments might be proper. He offered two for consideration.

This first takes away from husbands the right of action for injuries to his wife. This would prevent double judgments for the same injury, as in the Grundy case.

The second takes away the right of recovery for injuries caused by accumulations of snow and ice. It is argued that in the Wisconsin climate slippery sidewalks cannot be avoided. No amount of care can prevent snow and ice from remaining on sidewalks long enough so that accidents may happen, and it is impossible for the city to gather evidence in such cases. For instance, it snowed in Janesville yesterday and rained last night. Today the sidewalks are icy. A man falls and breaks his leg. He does not file notice of suit for fourteen days. By that time the ice has all disappeared. His witness are the only ones who remember exactly how the walk looked. The city can get no positive evidence and goes into the case with hands tied.

City Attorney Burpee argued strongly for the repeal of the statute, claiming that no amount of vigilance could save a city from heavy damage verdicts.

Attorney Jeffris insisted that the repeal bill originated in Janesville and that no other city cared much about it. There had been a furor in Janesville all growing out of one case, the Selleck case, he said, but this would die down itself.

Medicine for a Scratchy Pen.

"All pens are alike to me," said the clever young woman, "and all pens would be alike to you if you only knew how to break them in. Don't moisten your new pen between your lips before you begin to write. Don't say charms over it or squander your substance in gold pens. Take your cheap steel pen, dip it into the ink, then hold it in the flame of a match for a few seconds, wipe it carefully, dip it into the ink, and you have a pen that will make glad the heart within you. It is a process I have never known to fail."

GAVE ROUGH HOUSE OPENING

James Ryan, of This City, Had Merry Time at Clinton.

James Ryan, of this city, has engaged in the saloon business at Clinton, Wis.

He gave an opening a few nights ago, and to make the affair complete he secured a few would-be musicians from this city to go down and furnish the necessary inspiration.

The musically inclined young men from the Power City, after seating themselves in Mr. Ryan's resort, seemed to take more freely to rum than they did to their music and after playing, "She Was Brad in Old Kentucky" through a half dozen times things got so very loud that they had to stop.

Trouble then ensued and the Clinton police rushed in and made a half dozen arrests.

Some of the participants were sentenced to jail and have been in Sheriff Appleby's charge this week and a much wiser lot than before the opening took place.

LARGE GATHERING AT COLUMBIA HALL

EXCELLENT PROGRAM. RE-
NDERED LAST EVENING.

The Pleasing Exercises of the Evening
Were Under the Auspices of the
Several Catholic Societies of the
City—Instrumental and Vocal Music
and Interesting Addresses.

Columbia hall was well filled with
Janesville people last evening, who gath-
ered there for the purpose of listening to
the entertainment given under the
auspices of the Ancient Order of Hiber-
nians, Catholic Order Foresters, Women's
Catholic Order Foresters and the New-
man club.

Dean E. M. McGinnity presided and
in opening the program stated under
whose auspices the entertainment was
given.

Smith's celebrated orchestra played
several Irish airs which were greatly
appreciated and enthusiastically ap-
plauded.

Geo. L. Hatch, the harpist in the or-
chestra, sang "Sweetheart, Come Back,"
in a pleasing manner, after which the
orchestra was obliged to leave; in order
to play for the Federated Trades Coun-
cil's dance.

Mrs. John Connors rendered a solo
and in response to a hearty encore, sang
"St. Patrick's Day in the Morning."

Thomas Hogan recited "Hugey's
Charge at Chancellorsville," in a manner
that brought forth an encore, to which
he simply bowed his thanks.

Rev. Father Dowling sang "Gaul y
Dejyn" and in response to an encore,
sang "Martha's Wedding Day," which
brought forth a hearty applause. Father
Dowling has a most excellent voice.

Rev. Father William A. Goebel, pas-
tor of St. Mary's church, made a brief
but interesting talk on societies in
which he introduced experiences in rid-
ing the goat, etc. Adam and Eve he
said, composed the first society in the
garden of Eden. He referred to the
Catholic church which had stood for
1900 years, and to America as the great-
est country on the globe, and in which
we all take a great pride. He referred
to the protective feature of fraternal so-
cieties, and commended such societies
as the Catholic Knights, Ancient Order
of Hibernians, Catholic Order of For-
esters. Rev. Father Goebel in an inter-
esting speaker and is very popular with
all classes of people.

The united choirs of St. Patrick's and
St. Mary's churches, sang "The Angel
of Peace" in a most pleasing manner.

T. W. Reilly, of Chicago, was the chief
speaker of the evening, and he was in-
troduced by Dean McGinnity as a man
from the Windy city.

Mr. Reilly spoke very highly of frater-
nal societies such as the Hibernians,
Foresters, Knights and others. He
stated that the Irish were found the
world over, and told of the good work
they were doing in the Ancient Order of
Hibernians. He also outlined the work
of the United States League and stated
that its principles were Ireland for the
Irish and the lands for the people. Mr.
Reilly's remarks were well received.

Miss Mamie Jones, sang a solo in a
manner to call an encore, but she de-
clined to respond. The accompaniment
was played by Miss Tessie Gibbons.

Joseph Burns did himself proud in re-
citing Wendell Phillips' "Daniel O'Con-
nell."

J. J. Cunningham gave a most inter-
esting talk on Irish Americans. Mr.
Cunningham said their motto always
had been and ever should be liberty
and loyalty. The Irish had taken an active
part in the Revolution and assisted ma-
terially in the establishment of liberty
and a government based on manhood of
man. They had fought to defend it in
the rebellion. He eulogized the young Irish
for being too gay and laureated the vir-
tues of the early fathers.

Father McBride, of Oconomowoc,
pleased his hearers with his vocal solo,
"Kathleen Mavourneen," and for an en-
core gave "The Shamrock."

Rev. Father Dowling, of Argyle,
spoke on the ladies, whom he evidently
pleased.

A male quartette, consisting of E. O.
Kimberley, Archie Crawford, D. D. Ben-
nett and J. H. Burns, sang a well ren-
dered selection and the program came to
a close with a "Good Night" chorus
faintly rendered by a mixed quar-
tette, consisting of Misses Joyce and
Norton, Messrs. J. H. Burns and D. D.
Bennett.

MORE MONEY TO SPEND

From the report of the marked increase in the imports of precious stones at the port of New York for the month of January, 1899, as compared with those of the same months in the three preceding years, it is very evident that somebody is able to spend much more money in articles of adornment than in former years of lower tariff and lower finances. The American Economist says: Nearly half a million dollars more was spent in this way during January, 1899, than during January of the preceding year.

The report gives corresponding figures for the same month in the three preceding years. In January, 1896, the cut precious stones imported to this port were valued at \$109,572.12, while the uncut stones were valued at \$271,685.48. For 1897 the corresponding figures were: Cut, \$52,593.98; uncut, \$159,615.80. In 1898, the Dingley tariff having lowered the rate of duty on such imports, the amount entered jumped at once, the figures being: Cut, \$580,089.72; uncut, \$619,622.14. For January, 1899, the record was: Cut, \$1,036,970.02; uncut, \$563,311.48.

The small importations before last year would seem to indicate that there had been a good deal of smuggling. The Wilson law laid a duty of 25 per cent. ad valorem on precious stones and 10 per cent. on uncut stones. The Dingley law levies a duty of only 10 per cent. on cut stones, and puts uncut stones on the free list.

The St. Louis Globe Democrat says: "Jamaica, it is said, is anxious to be annexed to the United States." The Caroline Islands, too, it is said, want to come under American sway. This is complimentary to this country, but it will not start us out on a policy of promiscuous annexation. Cuba, Porto Rico and the Philippines give the United States all the new territory which it cares to assimilate at present. Probably at some time in the future the country may spread farther south and west, but we will have to reconstruct our recent acquisitions before we add any more to the list.

Six men, representing 90 per cent. of the stove founders of the United States, at a conference with six delegates from the Iron Molders' Union of North America, at the Auditorium Hotel, Chicago, raised the wages of 15,000 stove molders by the amount of \$43,000 a week.

The advance in wages means an increase of from \$1.80 to \$3.00 a week. It goes into effect on April 1, when a 10 per cent. advance in the price of stoves also will become effective.

Canvasback ducks were so numerous in the early days in Maryland that employers were obliged to enter into contracts with their laborers that the latter should not be fed on canvasback ducks more than three times a week. One man could easily shoot 100 ducks in a single morning in those days. Now the fowls cost \$5 a pair. In London they are worth \$25, while at Koshkonong lake their value depends, somewhat, on how they are killed.

The Milwaukee Press club will entertain the editors of the newspapers of the state during the carnival next June. Each day there will be demonstrations of professional problems, chief among which, will be instruction from the Cream City experts as to the creation of display heads. The construction of attractive heads is held, by newspaper men, to be a science in itself, and the country editors will doubtless get many suggestions as to heads that will be of value.

The citizens of Merrill, Wis., are to try a new plan in selecting city officers this spring. A dispatch says that a committee of ten, five from the republicans and five from the democrats, have been appointed to place a city ticket in the field and secure the nomination of that ticket by nomination papers. This committee has already met and agreed upon a ticket.

A dispatch says: "Mr. Barratt, ex-United States Minister to Spain, who has just arrived in this country from the Philippines, says that the conservative Filipinos are amazed by the precipitate action of Aguinaldo and his half savage followers in declaring war, before they knew what were the Americans' plans for the islands." And it may well be added that Aguinaldo has been amazed himself ever since.

Joseph Medill, the veteran editor of The Chicago Tribune died at San Antonio, Texas, on Thursday. In death, as in life, his profession was the paramount subject, and his last words were, "What is the news?"

C. A. Booth, editor of The Monroe Sentinel, is to be appointed postmaster of that city. The choice is an excellent one, and will give general satisfaction.

Janesville church goers will certainly find some topic in the following pastoral themes to interest them and be an incentive for them to worship divinely tomorrow:

Court Street M. E. Church—Rev. Walter A. Hall will preach morning and evening. This subject will accordingly be treated in two sermons, the first to be given tomorrow morning. The evening theme will be a comparison between Madame de Maintenon and Esther, or Pullet Beauty and Its Highest Use. The music will be extra good. BORACIC ACID IN MEAT.

Light on the Beef Question Comes from Philadelphia.

More evidence of the use of boracic acid as a meat preservative comes from Philadelphia. A soapmaker in that city, who purchases the excess of fat from the market stalls, says that about five years ago he noticed that something in connection with the tallow was preventing its union with the lye in the soap making process. He concluded that there was an acid of some kind in the tallow, and on making that statement to the firm that supplied the tallow it was admitted that the meat men were using a wash for the meat, and that it was boracic acid. He asked if the fluid was injected in the meat, and was told that it was used only on the surface before the meat was put in the ice-chest. The soap manufacturer adds that he has often since that time noticed in butcher shops that meat that had been undeniably washed with a preserving liquid or powder was avoided by the flies, while they would swarm on untreated meat. He had observed also that he had less trouble with the acid in cold weather, when it was presumable that less of the preservative was used.

And He Did.

INFECTED CATTLE ORDERED KILLED

TUBERCULOSIS CAUSES MUCH TROUBLE.

State Veterinarian Clute Called Here to Examine Herd On the Edward Parker Farm in the Town of La Prairie—Two Cows Killed And One Died.

Several Rock county farmers are at present considerably worried over the discovery of tuberculosis existing in cattle near this city.

Three valuable cows and a calf have met death on the Edward Parker farm near this city in the town of La Prairie.

Tuberculosis is a constitutional disease characterized by the production of tubercles in the internal organs and especially in the lungs, where it constitutes the most common variety of pulmonary consumption.

Several days ago a cow was taken suddenly ill on the Parker farm and died under most peculiar circumstances. Another cow in the same herd was taken ill and showing the same symptoms, so Mr. Parker called Dr. E. D. Roberts, of this city. One glance at the animal was sufficient to satisfy the doctor that the critter was suffering with tuberculosis.

Mr. Parker consented to have the animal killed and the post mortem that was held by Dr. Roberts showed plainly that the animal was suffering with this consumptive disease.

Parts of the infected body were sent to the state university for examination and State Veterinarian Clute of Marinette, was notified.

Dr. Clute came here and inspected the herd and then left the matter in the hands of Dr. Roberts.

Yesterday afternoon City Health Officer Gibson, Dr. E. D. Roberts, Sheriff Appleby and Bert Gage went to the Parker farm for the purpose of appraising a cow that was found to be affected with tuberculosis.

Tubercular tests were made by Dr. Roberts on twenty-three head and out of this lot one animal was found afflicted.

She was killed as was also a calf that had taken the disease as the result of partaking of milk from one of the cows that was ill.

Troops Entitled to Extra Pay.

Washington, March 18.—The comptroller of the treasury holds that the men who enlisted in the regular army or in the volunteer service for the war with Spain are entitled to extra pay. He holds that the soldier is entitled to two months' extra pay if he served in Cuba, Porto Rico or the Philippines, and one month's extra pay if service was in the United States. The soldier who received a furlough of thirty or sixty days prior to his discharge is not entitled to the extra pay. One point of interest is the fact that the soldier will receive the extra pay even if he is not mustered out with the organization.

Iowa Virtually Out of Debt.

Des Moines, Iowa, March 18.—Iowa is as good as out of debt. State Treasurer Herriott has issued a call for \$400,000 outstanding bonds, the payment of which will entirely wipe out the debt. The warrants will be paid as soon after April 20 as they are presented. It is expected by Treasurer Herriott that by Jan. 1, 1900, there will be a large surplus in the state treasury.

New Regulation As to Home Seekers.

Home seekers' excursionists may now return any day within the twenty-one days limit. Round trip excursion tickets to Iowa, Minnesota and Dakota points, and to points in southern, south-western, western and northern states, with a twenty-one day limit at half fare plus \$2, will be for sale by the Chicago, Milwaukee & St. Paul Ry. on February 7, 21, March 7, 21 and April 4th and 18th.

If you want your clothes clean and bleached white, use Maple City Self-Washing soap.

Michigan Tax Law in Dispute.

Lansing, Mich., March 18.—Seven of the most prominent attorneys in the state spent the entire day Friday before the Supreme court arguing the constitutionality of the law of 1881 under which telephone and telegraph companies have been taxed. The precise questions raised in this litigation are involved in the controversy over the law just enacted, changing the system of taxing railroad companies, and the court's decision will determine the worth of the latter statute.

PEACE TREATY IS SIGNED.

Formally Ratified by the Queen Regent of Spain.

Madrid, March 18.—The queen regent has signed the treaty of peace between Spain and the United States. The signed document will be forwarded to the French ambassador at Washington, Jules Cambon, for exchange with the one signed by President McKinley. No decree on the subject will be published in the official Gazette.

Georgia to Punish Lynchers.

Atlanta, Ga., March 18.—Gov. Canfield is very bitter in his denunciation of the Palmetto affair. He attributes the trouble to the fact that negro regiments and soldiers have been passing through and committing excesses and the sight of them has placed in the minds of the negroes a spirit of boldness. He said: "All the power of the state shall be used to prevent a recurrence of such crimes and to punish the perpetrators."

Miners' Battle a Hoax.

Ottawa, Ont., March 18.—Comptroller Fred White of the Canadian Northwest mounted police has received from Vancouver, B. C., a denial of the story of a clash between Canadian and American miners, at Porcupine Creek, on the Dalton trail. The story, which spoke of the killing and wounding of some on either side, meets with a refutation on the Pacific coast.

"Orangeism" has sprung into popularity through the grateful testimony of sufferers quickly relieved and cured.

New York, March 18.—R. G. Dun & Co.'s weekly review of trade says: "In business this year cannot be compared with any other. It can be said that payments through the principal clearing houses for the last week have been 57.4 per cent greater than in 1892, and 45.9 per cent greater than in 1893, but that exaggerates the gain in some branches of business, while in others it falls far short of the gain. Thus the February exports of manufactured products have about doubled since 1892. Omitting New York clearings, where speculation in stocks is most active, payments through the other principal houses for the same week show increase of 37.6 per cent over 1892 and 27.1 per cent over last year. But without regard to such details all realize that the volume of business in all branches is the greatest ever known."

"The national prosperity rests on more solid foundations. The exports of breadstuffs, provisions, cotton and oil in February showed a decrease of \$6,000,000, but other exports, mainly manufactured, were \$36,406,943 in value, against \$31,275,396 last year, and were sufficiently large to cover 60 per cent of the entire imports. The merchandise exports exceeded imports for the month \$33,624,117, the gold supply increasing, and there appears no occasion for monetary disturbance. The treasury recorded its first payment of the \$59,000,000 for the Central Pacific railroad, having previously received \$59,000,000 for the Union Pacific and over \$6,000,000 for the Kansas Pacific. "Failures for the week have been 189 in the United States, against 208 last year, and thirty in Canada, against twenty-seven last year."

"The Newest."

On the Bridge.

WE ARE PUSHING GOOD FLOUR.

For some time past we have been selling the two best Flours millers could
produce at \$1.00 per sack; against an advancing market most of the time.

Still we have kept the price down to a bargain figure. We have sold and
are selling immense quantities of Flour, not only because the price is low, but also
because these two Flour brands are of such goodness.

Washburn-Crosby Co.'s
Gold Medal at \$1
has but few equals; no better.

Jennison Bros'.
'Very Best', at \$1,
is a Flour that has never re-
ceived anything but praise
from its users.

Jennison Bros'.
Hard-to-Beat, 95c,
is thought by many to equal
many so-called "best patents".

We can not say how long we will continue present prices. We bought
several carloads at just the right time; and such a thing is possible that the market
may advance strongly. In that case our prices will advance. Keep your Flour
well cared for now while the price is in your favor.
